

Welcome to the NICU at Sinai Hospital

Through the generosity of several donors we are able to provide you with two private rooms to have a comfortable place to stay while your infant is in the NICU. We encourage our families to actively take part in their infant's cares and hope these rooms aid in doing so. Talk to your baby's nurse about signing up for our Pink or Blue room when you wish to stay.

- Please keep in contact with your baby's nurse about availability of the rooms as this can change daily. No more than two days in a row will be booked at one time. Understand that you could be asked to vacate the room if a more acute need for the use of the room arises.
- Mothers who are exclusively breastfeeding or pumping will be provided meals during their stay. Dial 2-FOOD (23663) to order meals
- If you are a pumping mother ask your nurse about providing you with a pump in your room during your stay.
- Please talk with your nurse about a good time for housekeeping to come in and clean your room. This needs to be done daily.
- Discard all trash in the trash can and contact your nurse if the trash needs to be changed.
- No smoking or alcoholic beverages are permitted in this room.
- Siblings and children are not permitted to stay overnight. When visiting during the day an adult must be present in the room at all times with the children.
- Please be advised that the hospital assumes no responsibility for personal items left unattended

We ask that you treat this room respectfully as it is enjoyed by many families. There is no charge for the use of this room. If you would like to show your appreciation and assist in the maintenance of the room for future families with a donation of any size, please contact Life Bridge Health Department of Development at 410-601-4438.
