

Logic Pipeline Lyrics

Comin' from nothin', try to see tomorrow
People feeling forced to steal cause they can't ask to borrow
We come from families where pops never stayed around
Grew up on playgrounds where killers spray rounds
Complexes with regular SWAT takedowns
Streets covered in blood with cops who barely make rounds
That's why I write lines
Automatics circulate the pipeline
Lyricism that fight crime
Follow the right signs
How can a mother watchin' bullets rain
Watch her son shine
Most of us taught to shoot and steal
Run from one time
A life in prison only take one crime
Not one dime as we drop it
This the mentality needs stopping
It don't start at the home
It start in the street
Systemic redlining on which side gon' eat
If you had to shoot and steal just to get you next meal
You probably will
That's how the people where I'm from feel,
all we know is what we know they done fed us a pill,
but when it comes to bullets on our block we must appeal,
they make us pick a side no one to confide,
when we young they tell us we could be whatever but they lied

Put 'em down and get up
Put 'em down and get up
This is motivator for the people that been fed up
Put 'em down and get up
Put 'em down and get up
This is motivator for the people that never let up
Put 'em down and get up
Put 'em down and get up
This is motivator for the people that been fed up
Put 'em down and get up
put 'em down and get up
This is motivator for the people that never let 'up

People killin' over sex drugs money, women and pride,
this doesn't stop with the pipeline it starts with the right time
to open up these young minds and system,
callin' community politicians
to take people from beneath and put 'em in higher positions
this is your job to keep more alive,
that's why I put the gat down and never glorify
Things that lead most families mortified
It starts at the bottom,
change the young man's mind and you got 'em
Don't just lock 'em up after you caught 'em
Go and teach 'em to fish,
If you won't do it Imma do it, Imma reach 'em with this
I've been there, I seen drugs in the crib
Robbers and killers, cook crack at 12 years old
All the bullshit they instill (in) us, feel like
All you know is all you got, but it's not
You are so much more than selling someone else's dope from the shore
With a promise that you'll never be poor,
nothing but lies homie
Put the gun down and rise homie

Put 'em down and get up
Put 'em down and get up
This is motivator for the people that been fed up
Put 'em down and get up
Put 'em down and get up
This is motivator for the people that never let up
Put 'em down and get up
Put 'em down and get up
This is motivator for the people that been fed up
Put 'em down and get up
put 'em down and get up
This is motivator for the people that never let 'up

If you seen that shit I did when I was young
You wouldn't know me,
what I'm saying is ain't no one perfect
System is crooked, that's why you work
Sell a key and buy a house, chop a brick and get a grip
Man, that shit it make me sick,
it's like a blind man I'm trying to teach,

but you better learn the language
If you trying to reach
too many people on the news they just trying to preach,
but they don't know about what go down Homie,
put the gun down, homie

Put 'em down and get up
Put 'em down and get up
This is motivator for the people that been fed up
Put 'em down and get up
Put 'em down and get up
This is motivator for the people that never let up
Put 'em down and get up
Put 'em down and get up
This is motivator for the people that been fed up
Put 'em down and get up
put 'em down and get up
This is motivator for the people that never let 'up
